

You are invited to participate!

**Dialogue with
Indian River Shellfish Growers**

**Wednesday, October 29, 2014
2:00—4:00 PM**

**Captain Hiram's Restaurant
Downstairs Meeting Room
1606 Indian River Drive
Sebastian, Florida**

**Learn about ongoing projects being conducted by the
Shellfish Aquaculture Research & Extension Program:**

- Project VENUS: Vocational Education Network Using Sunrays
- Effects of a Pump-driven Harvester on Water & Soil Properties
- Performance of Biocide-free Coatings in Biofouling Control
- Valuation of Ecosystem Services provided by Clam Farms
- Development of Triploid Oysters for Florida Culture Stocks

**Meet Dr. Huiping Yang , a new UF faculty member
in molluscan shellfish aquaculture and restoration,
and hear about her research experiences**

**Provide direction in addressing research efforts
to meet the needs of the shellfish aquaculture industry**

**For more information, contact Leslie Sturmer,
UF IFAS Shellfish Aquaculture Extension Agent,
at (352) 543-5057 or LNST@ufl.edu**
